

TEXAS TRANSPORTATION COMMISSION

MATAGORDA County

MINUTE ORDER

Page 1 of 1

YOAKUM District

In Matagorda County, along the Gulf Intracoastal Waterway, the State of Texas (state) acquired an easement over certain land now needed by the United States of America and its assigns, acting by and through the U.S. Army Corps of Engineers (USA). The easement was conveyed by an instrument recorded in Volume 248, at Page 53, of the Official Records of Matagorda County, Texas.

The USA is engaged in the maintenance and construction of the Gulf Intracoastal Waterway project as authorized by acts of Congress, and it is necessary that suitable dredge material disposal areas be made available for the furtherance of such work.

The state, acting by and through the Texas Transportation Commission (commission), desires to fulfill its role as nonfederal sponsor, as authorized by the Texas Coastal Waterway Act, Transportation Code, Chapter 51, by providing the land necessary for suitable dredge material disposal sites.

Texas Government Code, Section 2204.203, authorizes the governor of the State of Texas, on the recommendation of the commission, to convey to the USA, with or without monetary consideration, an easement or other interest in land that may be needed for the construction, operation, and maintenance of such a civil works project as described above.

It is the opinion of the commission that it is proper and correct that the state convey an easement in the land, as described in Exhibit A, to the USA for the purposes described in this minute order.

NOW, THEREFORE, in consideration of the foregoing premises and in accordance with the provisions of the applicable statutes, it is hereby recommended by the commission that the governor of the State of Texas execute a proper instrument conveying to the United States of America and its assigns, acting by and through the U.S. Army Corps of Engineers, a 50-year easement interest in the land, as described in Exhibit A, for the purposes of depositing or storing dredge material from the main channel of the Gulf Intracoastal Waterway, with the option to automatically terminate and be null and void and of no further effect before the end of the 50-year term, on the execution by the USA and acceptance by the state of an affidavit in recordable form stating that the purposes for which the conveyance is made are no longer necessary.
